

- 1 We need police officers that do not have restrictions that prevent them from policing and making Oakland a safe place to live.
- 2 20+ years is way too long. The federal monitor must go.
- 3 A native Oaklander, I am in favor of allowing police to do their jobs to protect the population. We need to stop the attrition, attract more quality candidates and show that we have confidence in them rather than restricting them and denying proper equipment at every turn.
- 4 About time!
- 5 Accountability is a good thing, but the continued federal oversight does not bring that deliverable. It has been two decades and incredibly expensive. It is also difficult to not question the financial incentive for those who have made millions by prolonging the federal oversight of the department. Oakland is beautiful City that welcomes all people. Charter reform and other measures to strengthen our institutions will yield better results for our residents than extending this expensive and nearly 25 year process.
- 6 After 20 years + Oakland has progressed to a point where the continued oversight is hampering the Oakland Police Department's further return to normalcy and full strength. It appears to me that the oversight process is being prolonged for the benefit of the Attorney who is paid handsomely each year that the Oakland Police Dept. remains in his perview. Furthermore, it seems that the Oakland Police Commission is composed almost exclusively of a faction of citizens who are vehemently opposed to realistic policing of our city. Their agenda appears to be to continue the oversight and hamstringing real police work, because of a decades old mistrust of the Police and the enforcement of laws to which they may not agree. Oakland has hired a very competent Police Chief who is making progress even in the face of this situation that deters him from swiftly adopting the measures needed to fight crime, especially property crime, in our city. The help of the California Highway Patrol has been critical in stemming the crime wave in Oakland. Budgeting for a fully manned police force which requires the hiring of at least 200 more officers is another key task to be executed. I argue that the \$1,000,000 + that we are paying for Federal Oversight annually, can be better spent hiring police officers to fight crime on the ground in Oakland. Please, your Honor, this situation needs to come to an end so that we can move together to effectively address Oakland's crime problems!
- 7 An A- is a terrific grade, A+ is proving impossible.
- 8 And we need ALL NEW COUNCIL MEMBERS- --ALL!!!! Throw the crooks OUT! Dirtbags!
- 9 As a community we understand the original need for oversight, and as a community we have watched our police department respond to and exceed oversight mandates. Continuing the oversight is an oversight in itself causing low moral in the very officers who protect us day and night. And, the money this costs Oakland can be put to much greater use.
- 10 At least suspend it for <5> years

- 12 Born and raised in Oakland and have been waiting years to get out from under federal oversight. One man continues to make hundred of thousands in profit while Oakland continues to struggle.
- 13 Can't the sheriff or the CHP oversee the OPD instead of the current overseer?
- 14 Changes are require in Oakland, because crimes doesn't stop unit out OPD department has support by our Oakland council members.
- 15 Dear Judge Orrick,

I am a newly minted Oakland resident in the Dimond district and I have been following the OPD federal oversight requirements closely in the news because a functioning and responsive police force is important public safety--citizens should feel safe and small businesses should be protected.

The Oakland police department has 678 officers with 130 officers on administrative or medical leave. A recent study commissioned by the city of Oakland recommended a minimum of 877 officers. That means that the Oakland police department is running at 62% capacity. The federal oversight is meant to correct the horrors of the Riders scandal and bring accountability to the Oakland police department but now on its 22nd year with most of the required oversight requirements completed it's a drag on Oakland's police force retention and manpower exacerbating long police call times and sapping resources.

I just met my neighbor today, she was born in the Dimond district and lived here most of her life. She is a skilled nurse and served during the pandemic. Just this past year she told me she has been carjacked in front of our houses and the neighbors and bystanders attempted to intervene because no police officer came. We are purchasing firearms because we have no faith in such a diminished police force to keep us safe. I am a software engineer and my wife is an environmental lawyer who wants to see all firearms banned and off the streets.

I am asking that you remove the federal oversight so Oakland can rebuild its police force and return self government back to the people and city. Since the settlement there have been civilian oversight committees and new state and federal laws that work to continue the good work that you have done.

Signed sincerely,
Sam Yu

Party due to a lot of the results of the choices they've made, I hope they can see the light and go back to common sense to help out common people.

43 I am deeply troubled by Robert Warshaw's oversight of the NSA. The NSA drives enormous cost to the city of Oakland and seems to have done little to repair the Oakland Police Department's safety or effectiveness. From speaking with members of the community, elected officials, and police officers, it seems clear to me that improvements in OPD performance over the past decade have been in spite of, and not because of, the Warshaw's oversight of the NSA.

Further, Robert Warshaw's track record and incentives suggest he will never voluntarily deem OPD compliant with the NSA. In the case of his oversight of the Detroit police department, a federal judge needed to intervene to bring it to an end. Oakland will continue to be saddled with the cost and overly burdensome procedural compliance of the NSA until the Court releases us from Warshaw's oversight.

44 I am satisfied that OPD has changed their operations and that sufficient oversight is in place in the Oakland government system. Continued Federal oversight is disrupting our success.

45 I believe (and have read about cities our size) should have 1200-1400 officers to maintain the law. The current number is a sorry state of affairs, dangerous for the officers and the public.

46 I believe It's time for us to wrap up the loose ends required for oversight to end and manage our city locally.

47 I fully support exiting the NSA

48 I have been an Oakland resident since 1980.

49 I support ending federal oversight of the Oakland Police Department. After more than twenty years, the continued monitoring no longer serves public safety. It has drained city resources, reduced officer availability, and contributed to critically low staffing levels. These factors directly harm residents and businesses that depend on timely police response. Oakland now has strong local oversight systems in place, including the Police Commission and the Community Police Review Agency. It is time for accountability to rest with the people of Oakland, not with a federal monitor. Ending the oversight will allow OPD to focus on rebuilding staffing, improving response times, and restoring safety and stability across the city.

50 I support OPD

51 I understand from independent reading that Oakland's officers are limited in their function, in comparison to other local forces, by the continuing control of the Monitor, I request that these limitations be lifted after these many years.

52 I was born and raised in Oakland. I've seen significant progress in many areas of social life here. I fully support exiting the NSA.

53 I've always felt their presence tied the hands of the police. The police are dealing with hardened criminals with "their hands tied behind their backs",

- 54 I've lived here for over 30 years.
I no longer feel safe
- 55 In full support of stopping this oversight. It's a waste of my tax dollars and severely harms OPD and their ability to serve our community to maintain safety and community outreach.
- 56 Investments in public safety are desperately needed in Oakland. The NSA is nothing more than a tool for grift by its monitors and it undermines public safety. It needs to be ended immediately.
- 57 It been too long and expensive!
- 58 It has been 20 years. It is time for this to end.
- 59 It is long overdue that the restrictive policies of the NSA/federal oversight come to an end. We are at a point where the NSA is crippling our budget, retention of OPD Officers and causing irreparable harm to the public safety of the citizens Oakland. Enough already. Make it stop.
- 60 It is time to allow our few remaining police officers to do their job and restore some sense of safety in our city. The balance has been tipped in favor of the criminals for much too long. I hear so many people from Oakland and surrounding areas saying they are afraid to go to businesses and restaurants in Oakland. Our city is suffering.
- 61 It is time to end this unjust, corrupt government dictatorship and send Mr. Warshaw packing!
- 62 It is time to take the "Handcuffs" OFF for OPD.
- 63 It is time.
- 64 It is very expensive and has been going on for far too long. We could use the money for more police, which we really need.

- 96 Now that Barbara Lee is Oakland's mayor, I believe the city of Oakland is in competent hands and can manage the OPD itself without Federal oversight. This particular Federal administration does not inspire my confidence in its ability to provide rational, fair oversight at the national level, let alone the local or state level. Let's take our city back.
- 97 Oakland can't afford this and doesn't need this!

- 98 Oakland is suffering from the onslaught of crime. We need to let the few remaining police officers do their job and restore some sense of safety to our city.
- 99 Oakland needs an ability to defend itself from the lawlessness that is happening everywhere from illegal homeless encampment, to sideshow, to crime on the streets. The police force that is free to enforce the law within the legal limits is a minimum requirement to do that. Nsa is outdated and does not serve the interests of citizens of Oakland.
- 100 Oakland needs more policemen and policewomen given the size and needs of the city.
- 101 Oakland needs the funds that are paid to the oversight committee for other useful programs.
- 102 Oakland needs to take responsibility for its own policies and its own police force
- 103 Oakland now has a Police Commission that is also overseeing policing in Oakland. You are endangering we the law-abiding citizens. Let our police get back to work! And if there aren't the restrictions of the Settlement then more police will be willing to work in Oakland.
- 104 Oakland Police must be accountable to residents, not a monitor. I am no fan of Police but believe they have come a long way from the old days of racism and corruption. We must trust that they can do a good job without onerous and distracting oversight.
- 105 Oakland urgently needs stronger action on crime. The new leadership must deploy more technology, simplify police work, and give officers the tools and freedom to be proactive in protecting our city. Too much time has already been wasted while crime continues to harm residents, businesses, and the economy every day. We recalled the previous mayor for being too slow and soft on crime, and the same mistakes cannot be repeated. In absolute numbers, crime is still extremely high in Oakland—stop hiding behind percentages and excuses. We need decisive leadership now to restore safety and confidence in our city.

- 107 OPD does not need anymore oversight. OPD needs our support, not Federal oversight
- 108 OPD has made great progress over the years. It's time to use our limited resources in the service of stopping crime, rather than continuing to pay monitors whose shifting targets make it nearly impossible for the department to achieve compliance.
- 109 OPD needs to be free to operate like other cities do. The Negotiated Settlement Agreement (NSA, federal oversight) has gone on too long. Thank you.

- 110 Our city has become a lawless dump because of anti-law, anti-police reckless city leadership, it's NOT OPD that needs more oversight. Our radical, anti-law police commission stands in the way of law enforcement and should be abolished.

- 146 The agreement is a big source of income for the overseer and they have dragged this out far longer than it is necessary. That money would be put to better us by the police department for more helpful modern police strategies.
- 147 The City of Oakland should exit the negotiated plea agreement because it has dragged on for over 20 years with no clear end in sight. Despite millions of taxpayer dollars being spent, the agreement continues to drain resources that could otherwise support public safety and community programs. Each time OPD approaches full compliance, the negotiator shifts the requirements, creating a moving goalpost that prevents true resolution. This cycle has proven unsustainable and unfair to both the department and the residents of Oakland.
- 148 The conservator has been on the job too long. There is no other situation in California where the conservator has remained for over a decade.
- 149 The continued oversight is negatively impacting public safety. OPD has proven they have made the requisite changes. It's time to exit.
- 150 The cost of this program is too much for the City of Oakland to bear, it's been too long and it's time to give our OPD a chance.
- 151 The federal monitor is not providing meaningful oversight. OPD is unnecessarily hobbled in delivering service to the community by this and other excessive oversight. It's time to end this agreement and move towards a healthier department. We would be better off focusing on what kind of service the department will deliver.
- 152 The money being spent on oversight for over 20 years should be instead spent directly on increasing police hiring and presence for increasing safety in Oakland.

- 153 The Negotiated Settlement Agreement has served its purpose and is now standing in the way of Oakland's progress.
- 154 The NSA has long negatively impacted the safety of Oakland residents by imposing onerous "rules" on officers, leading to their underperformance on the job. Officers are written up for ridiculous infractions, then investigated, with over 95 percent of the infractions being dismissed. The NSA's heavy handed oversight of OPD officers has endangered our safety and drawn much needed resources away from the community that has one of the highest rates of crime in the country. End it now please!
- 155 The oversight MUST stop.
- 156 The police need to be able to do their job.
- 157 The revenue being spent on nebulous oversight can be used in a much more effective way by OPD and the City of Oakland.
- 158 The stone the oversight ends the sooner Oakland will have more police and become a safer city. Something we all want!
- 159 The time has come to turn the page on Federal oversight mandated back when Oakland had overtly corrupt police officers. Now that is not the case. Our challenge is staffing, morale, and less oversight from a number of sources so that the OPD can do its job effectively. The benefits of the Federal Oversight have been implimented and now it is simply an unnecessary expense in a time of fiscal deficit. The Money spent on oversight is better directed to hiring and retaining Police Officers.
- 160 The time is way past due to end this oversight. Please help the community by ending this.
- 161 The very fact that the oversight has gone on for so long is proof that it has failed. In fact, OPD has improved across the board, and is only being kept in oversight to satisfy the baffling, ever-changing demands of the oversight manager. The money spent on oversight unironically will be much better spent on actual policing.
- 162 This action is way past due.
- 163 This exit is long overdue.
- 164 This has become a sweet retirement plan for the overseer & his crew, and our police chiefs can't run their department, so we keep rotating through chiefs - and beat cops know if they don't do anything they won't get in trouble, so OPD is way less effective than it could be.
- 165 This has been detrimental to Oakland for years. Please exit

- 173 This oversight needs to end in order for the city of Oakland to progress forward. The damage this oversight has done to the police department is well beyond what the police department needed to correct prior bad behavior. - 190 We are wasting \$ on the monitors who have done nothing to help in 20 years. We would like to use the \$ for more police officers and park rangers. The OPD needs a huge morale boost and a message sent that we value our law enforcement officers.
- 191 We deserve better
- 192 We desperately need more police and this oversight is severely limiting our ability to attract and retain police officers.
- 193 We have been held hostage to the NSA for 22 years and consolidated both monitor and compliance director into a single role. Monitor Warshaws power is unchecked and he continues to move the goalpost in terms of ending oversight. The cost of oversight is extremely high in that it requires nearly double the amount of time filling out paperwork than would be necessary otherwise. It also has a huge impact on recruitment and retention. Warshaw is making a ton of money off the backs of the people of Oakland and has no intention of ever letting us run our own city. Detroit had to implore a federal judge to remove Warshaw after many years of crippling its police department. And as a citizen who has been the victim of multiple property crimes here in Oakland, I implore you to remove one major barrier we have to providing adequate public safety in a city I love.
- 194 We have had enough Federal oversight and it is time to return the police department to local control with staffing up to at least 900 officers.
